

## Company Profile: a fictitious example

### *Al Mistery [UAE]*

Client of > [REDACTED]

<http://www.almistery.com/>

[14 August 2007] Abu-Dhabi based [REDACTED] has selected Epicor Scala to provide its ERP system.

[REDACTED] will work with [REDACTED], Epicor's channel partner for the UAE, Bahrain and Qatar, for the implementation of the iScala suite. The suite is an end-to-end system of industry-specific solutions that provides services from customer relationship management (CRM) and service management to financial and supply chain management (SCM).

\* \* \*

[REDACTED] is the leading provider of oilfield services in the Middle East. Founded in Abu Dhabi, United Arab Emirates, in 1979, the company has grown to employ a workforce of 2,500 across 22 countries throughout the world.

Diversified businesses and manual processes led to several delays in management information availability & reporting. Intercompany transactions and Consolidation of Financial Data was a recurring pain area that needed immediate remedial action.

iScala implementation resulted in the efficient Financial Reporting helping the management gain prompt access to trends and consolidation across various service lines. Asset & Manpower utilization processes were re-engineered and the challenges were overcome as per expectations.
